### THE BLUE RIDGE REVIEW

Southeastern Chapter of the American Rhododendron Society

Encouragement of the culture of Rhododendrons

October-November 2013

# Annual Plants for Members plus Stan Southerland Sunday, October 20, 2:00 PM

Our speaker is Stan Southerland of Chapel Hill who will tell us about **"The Hybridizing Program of** 

**Delbert Brim'** (A late spring day in Delbert's Garden). (See JARS 2010, p.74)

Stan was born and raised in Brevard NC. He spent his youth fishing and hiking throughout Western North Carolina. After graduating from Western Carolina University with a BS in Biology he

relocated to Chapel Hill NC, where he worked in various areas of biological research. At the end of 2009 after 25 years with UNC/Chapel Hill, he took a partial retirement. Meanwhile, he and his wife Carolyn, had purchased a home just outside Chapel Hill with a sloping, heavily wooded, rocky lot with

'Janet Blair' x 'Helen Vieira' 2010 1st

a good number of understory plants such as wild huckleberry, ferns, wild ginger and others. Being from Western Carolina he said to himself, "this lot needs some rhododendrons." He quickly purchased 'Roseum Elegans' and

'Mrs. E.C. Stirling', both of which continue to do well today. He became hooked on the genus Rhododendron and joined the Piedmont Chapter of ARS, bought reference books and more rhododendrons. (Stan and Carolyn now belong to SE-ARS.) After discovering that a great many hybrids do not survive heat, high rainfall and all the associated diseases, he became convinced that he could breed hybrids that would survive and do well in the Piedmont of NC, using R. hyperythrum as a parent. Stan has been hybridizing with hyperythrum for over 15 years and recently named two hybrids ('CeeCee' & 'Papa Cook'), and will be naming

more hybrids shortly.

We will hear a little about **his** hybridizing program, but for now, he says, "I am honored to present a program on one of the few living master Rhododendron hybridizers. That is Delbert Brim."

'Consolinni's Windmill' X Helen Vierira 2010 Brim garden best

Glenn O'Sheal has a huge variety of wonderful little plants, for just \$3 each, grown from cuttings from many of our own gardens for our annual "Plants for Members" sale! See the list and color pictures inside, but you must have the PDF version of BRR to see the colors! (Send an e-mail to the editor.)

2014 dues are due by our October meeting in order for your name to be in the Christmas Party drawing for a free membership year!

### Wait List for Fern Event Fully Accomodated By Judy & Chuck Van Rens

Twenty SE-ARS members had a special treat on Saturday, September 15<sup>th</sup>, when they tapped into the amazing body of knowledge

SE-ARS members listen to Tom Goforth explain the history of ferns.

about ferns offered by Tom Goforth. We learned about the history and life cycle, while gaining an

Judy Van Rens, Seiglinde Anderson, and April Sanborn select their special ferns.

understanding of the variations in genetic structures and habitats of these ancient plants. Many of us came away with ideas for ferns that make good

rhododendron companions, like Royal Fern and Fancy Fern; we were able to purchase starter plants

from Tom's varied selection of native ferns grown lovingly and professionally at his Crow Dog Native Ferns and Gardens in Pickens, SC.

Tom Goforth explains about ferns' habitat, during the hike.

E-mail from: Tom Gorforth to Sieglinde Anderson

Subject: Crow Dog Visit

#### Sieglinde,

Please communicate to all who visited here that I thoroughly enjoyed it. Everyone was so friendly and a joy to meet and converse with. From my perspective, it was a fun day. Let them know that I would welcome another visit (by appointment). We just barely touched the many and exciting

native sites of the area. I was particularly happy to see the swamp Tradescantia at Long Shoals Park. Thanks for the opportunity and honor to speak to your members!

Best, Tom

## "America's Treasure: Our Native Azaleas" -- Special Invitation from Vaseyi, ASA Chapter, to Hear Don Hyatt

Don Hyatt will be presenting this fabulous program on Sunday, October 13, at 2:00 PM, at St. John in the Wilderness Parish Hall, and we're all invited! Don is a sought after presenter on various plant related topics including rhododendrons, native azaleas, evergreen azaleas, wildflowers, flower photography, and general landscaping. His multi-media presentations have been well received at many conferences in the US and abroad. He has

received numerous honors in horticulture including the ARS Silver Medal in 2002, and the Gold Medal in 2012.

http://www.donaldhyatt.com/images/A -NativeAzaleas-01.jpg

#### Don had been

keenly interested for nearly 20 years in the preservation of our beautiful native azaleas and other wildflowers and the scenic places where they grow, including the Blue Ridge Parkway and the Appalachian Trail in North Carolina, even during his 33 year career teaching math and computer science. Don continues to maintain a private garden at the family home in the suburbs of Washington D.C. where he grew up. Over many years, he has developed a beautiful landscape of rhododendrons, azaleas, and companion plants. He started his first garden there in 1951 at the age of three, and many of his plants are now quite large.

This program is open to the public, so bring friends.

#### Plants for "Plants for Members"

**Now** is the time to send an e-mail request for a PDF version of the Blue Ridge Review, so you can truly appreciate the colors of these gorgeous rhododendrons!

Anna Rose Whitney griersonianum x Countess of Derby. Deep rose pink funnelshaped flower, up to 4" across, spotted brown in throat, held in ball-shaped trusses of 12-21. Late midseason, 6 ft., -5°F.

Vigorous, rapid growing shrub. Needs plenty of room to develop.

Catfort Campy - Gable hybrid, R catawbiense x R haemetodes ssp haemetodes. 5 ft. in 10 years.

hybrid. Pink funnel-shaped flower, 3 1/8" across, rose-pink with deeper red staining on the upper lobe, held in conical trusses of about 24 flowers. Midseason, 6 ft., -15°F. Domeshaped habit. Sun and heat tolerant.

**Dexter's Spice - Huge very** fragrant openly funnelshaped, frilly white flower with pale yellow-green spots in throat, 4 1/2 to 5 inches across. Lax trusses of 5-7

flowers. Late midseason, 4-6 ft. tall, -5F. Upright, broad habit.

**Dexter's Peppermint - Pink**, wavy margined flowers with greenish blotch. Early midseason, Height: 13 ft, Width: 12 ft. Upright habit.

#### **Dexter's Honeydew -**

Fragrant openly funnel-shaped buff flower, with faint highlights of pink, apricot, and yellow. Late midseason, 3-5 ft., -10F. Plant forms a mound wider than high that can be sprawly, but pinching when young will shape it.

Faggetter's Favorite - , White, pink and cream melt together in the fragrant openly funnel-shaped flower. Midseason, 6-7 ft., -5F. Outstanding plant, prefers some light shade.

Glenda Ferrell - Dexter, fortunea hybrid. Pink openly funnel-shaped flower with red blotch. Midseason, 4 ft.

Gomer Waterer - Madame

Carvalho x Pink Pearl. White with flushed mauve-pink

edges and yellow-brown flare in the upper lobe, openly funnel-shaped flower, 3" across. Dome-shaped truss of up to 24 flowers. Late midseason to late, 6 ft., -15°F. Spreading habit, heat resistant and sun tolerant.

Katherine Slater - Dexter. Large frilly pink and white trumpet-shaped flowers, greenish-yellow blotch, lightly-scented conical truss. Slow growing, 8 ft., open multi-stemmed upright spreading habit.

Lee's Dark Purple catawbiense hybrid. Royal purple broadly funnelshaped flower, with greenish-brown to ochre marks within, 2¾" across, ball-shaped truss of about 16 flowers. Late Midseason,

6 ft., -15°F. Upright growth habit.

Lodestar - catawbiense, white form x Belle Heller. White flower with greenish yellow blotch, 3 1/8" across, large truss holds 15 flowers. Midseason, -20°F. Large lighter green leaves that form a nice shaped plant. 4-6 ft., wider than tall.

(Cont. on Pg. 4)

(Cont. From Pg. 3)

#### **Lord Roberts -**

catawbiense hybrid. Dark Red funnel-shaped flower with v-shaped black markings on dorsal lobes, 2½" to 3 1/8" across, ball-shaped truss holds

12-22 flowers. Late midseason, 5 ft., -15°F. Vigorous growing, upright, rounded habit.

#### **Marchioness of Lansdowne**

- maximum hybrid. Violet-rose broadly funnel-shaped flower with almost black blotch. Late, 5-8 ft., -15°F. Elliptic to oblong leaves, spreading open habit.

Mardi Gras - R.

degronianum ssp yakushimanum 'Koichiro Wada' X 'Vanessa Group'. clear pink blushed white 3" flowers, 12/truss. Midseason, 4 ft.

Oblanceolate leaves with indumentum. Compact habit,

sun tolerant.

Merley Cream - Dexter hybrid. Creamy white openly funnelshaped flower with a prominent yellow green blotch, tall truss. Midseason, 5 ft. Mid-green elliptic leaves, very hardy.

Mrs. Tom H. Lowinsky -

Waterer Hybrid. Pale lavender funnel-shaped flower that ages to white with a brownish-orange blotch, 3" across, overlapping lobes, 14 flowers/truss. Late, 5 ft., -15°F. Vigorous grower. Round habit.

Northern Star -

discolour x Loderi Iceberg. Scented white flowers with a greenish yellow throat, large trusses. Late, 9-10 ft., -15°C.

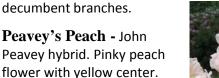

Parson's Gloriosum - catawbiense hybrid. Pale rosy

mauve lavender funnelshaped flower with ray of bright yellow markings, 2 3/8" across, dome-shaped truss holds 20-24 flowers. Late midseason to late, 6 ft., -25°F.

Leaves elliptic to obovate, 4" to 6" long. Upright habit.

Pearce's American Beauty - Mrs. Charles S. Sargent? x Dr. H.C. Dresselhuys?, Srong purplish-red openly funnel-shaped frilly flower with yellowish-green spots, 3" across. Ball-shaped trusses of 18 flowers late, 6 ft., 0°F. Broad habit with

**Red Eye -** Anah Kruschke x Purple Splendour. Deep reddish-purplish flower with a greenish-gold eye that slowly turns red. Late midseason, 6 ft., -10°F. Dense, rounded habit.

Midseason, 4 ft. Upright habit.

**Rio -** Newburyport Beauty x

Newburyport Belle. Pale purplish-pink openly funnel-shaped flower with pale yellow spots, wavy lobes, 3¼" across. Ball-shaped trusses with up to 16 flowers. Midseason, 3 ft., -20°F, Leaves 5¼" long,

semi-glossy, light green. Rounded habit.

Rona Pink - Dexter Hybrid.
Purplish-pink openly funnelshaped fragrant flower, lighter
inside with sparse yellow-green
spotting, darker outside, wavy
edges, about 3" across. Domeshaped trusses of 12-14 flowers.
Midseason, 5 ft., -10° F. Leaves
6½" long, dense, spreading habit.

after April 1st.

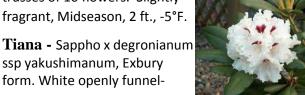

Ruby Bowman - fortunei x Lady Bligh. Rose-pink

openly campanulate flower, with a blood red throat, wavy-edges, up to 4½" across. Dome-shaped truss of 13-15 flowers. Midseason, 5 ft., -5°F. Spreading habit. Fertilizer sensitive. Prefers afternoon sun protection.

Smoky #9 - Lem Halfdan (Burgundy x Moser's Maroon). Very deep purple (almost black) broadly funnel-shaped flowers. Mid May, 6', -5°F. Grey-green leaves and red stems. Rather leggy grower.

chapmanii x keiskei, prostrate form, Light yellowish-pink openly campanulate flower, slightly fragrant, 1¼" across, with brown speckles in throat, ball-shaped trusses of 10 flowers. Slightly

Southland - minus var

shaped frilly flower with dark red butterfly-shaped blotch surrounded with spots, 2½" across, 16 flowers on truss. Midseason, 5 ft. -5°F. Upright, open growth habit.

Todmorden - Dexter, (Pygmalion x haemotodes) x Wellfleet. Light purplish-pink widely funnel-shaped flower with deep purplish-pink edges, aging

to nearly white, sparse light yellow-green spots, 31/2" across. Ball-shaped trusses. Late midseason, 6 ft., -10°F. Upright, rounded habit.

**Tom Everitt** - R. Fortunei hybrid. Extra large silvery pink fragrant flowers with yellow green spotting in the throat. 4', -15F. Large leaves, dense habit.

White Swan - decorum x Pink

Pearl. Pale pink, openly campanulate flowers, fading to

white, with a green blotch at dorsal lobe base, 4" to 5" across. Conical-shaped truss has 16-19 flowers. Midseason to late midseason, 6 ft., -5°F. Upright, rather compact, dense habit.

#### Southeastern Chapter of the American Rhododendron Society Officers and Directors

President: Ray Head Treasurer: Jackson McCarter

Vice President: Sieglinde Anderson Secretary/Editor: Marilyn Haynes Past President: Jackson McCarter Directors 'til 2014: Betty Becker,

Jean Pace, April Sanborn

Directors 'til 2014: Wayne Hutchins,

Leon Pace, Audrey Stelloh

('Janet Blair 'x R. decorum, yellow) X Brim's 'Helen Vierra'

#### Dues are due by October meeting

We'll have a drawing for a full year's membership for 2015 at our Christmas Party. Your name will only be in if our treasurer receives your 2014 dues by our October meeting. Will YOU be in???

## Thanks to those who participated in the Update of the Proven Performers List project for the Southeastern Chapter!

The suggestions were submitted to ARS National through Ken Gohring. Ray Smith of the ROY program indicated that Proven Performers don't have to be registered; ROY nominations do have to be registered.
