C. Judging Rules

1. There are two groups of judges for Sections A through J, with each group judging roughly one-half of the entries. Clerks will take notes, record the awards and move entries as needed for judging. Clerks may touch the entries; the judges may not.There is a separate group of judges for Section K.

2. Judges will compare each entry in a category (a class, a group with no classes, or a section with no groups) and may give awards to those entries which best meet the Judging Criteria for that category.

3. For each class, judges may give none or no more than one First, Second and Third Place award, at their discretion, and may give any number of Honorable Mention awards.

4. The First Place Class entries in multi-class groups are judged for Best in Group. First Place Class in a group with no classes also receives a Best in Group award.

5. The Best in Group entries in multi-group sections are judged for Best in Section. Best in Group in a section with no groups also receives a Best in Section award.

6. The Best in Section entries in Sections A through G are judged for the Best of Show award by all the A-J judges.
